4. Safety equipment furnished to an employee by the Employer for use while working for the Employer must be returned to the Employer in order for the employees to receive a replacement. An employee who fails to return any safety equipment furnished to him by the Employer for use while working for the Employer will have an amount equal to the cost of the Employer of such equipment deducted from his pay.

5. It is recognized that there are important roles to be performed by both management and labor in the prevention of accidents and to ensure a safe and healthy work environment. The worksite shall be maintained in a clean and orderly state, which in-turn will encourage a safe, efficient and more productive operation.

It is important to succeed in this mutual endeavor. Failure of this effort can produce emotional stress, financial hardship and loss of work not only to the employee, but also to the employer.

It is of mutual benefit to both labor and management to work together and pledge jointly that they will do all that is conceivable to maintain a safe, hazard free work environment on each jobsite. Regular jobsite inspections, continuous safety training on and off the jobsite, establishment of emergency procedures for each jobsite and a commitment of continuing teamwork between the parties to this agreement will produce the desired results.

It also should be noted that if any employee fails to comply with any of the company’s safety rules or policies, that employee may find himself/herself in jeopardy of being dismissed by the employer.

Drug-Free Workforce

The parties hereto have signed a letter of understanding agreeing to participate in an industry drug testing program when such program is operational. Effective May 1, 2009, funding will be an employer contribution of 6 cents ($0.06) per hour.

Employees are the contractor's most valuable resource and, for that reason, the health and safety of all employees is of paramount concern. Therefore, recognizing the importance of maintaining a safe, healthy working environment for all employees, Employers propose a policy that follows Substance Abuse and Mental Health Services Administration (hereinafter, SAMHSA, formerly known as NIDA) guidelines. Contractors will develop and maintain a drug testing program for their employees and supervisory personnel. Testing may be done prior to employment, periodically (defined as no more than one time per individual in any 12-month period), upon reasonable suspicion and after a reportable accident (defined as an accident resulting in a death or injury requiring medical attention away from the scene, or significant property damage, estimated at the time of the accident to be $5,000 or more for replacement or repair. Laboratories selected to perform testing will be SAMHSA certified. Possession, sale or use of alcohol (definition to be included in testing procedures) or unauthorized prescribed medicines on the Employer's property, site of construction, or during working hours regardless of location, shall be grounds for termination of employment. Employees must not report for work after the use of any illegal substance or alcohol (as defined as a positive under this policy).
All applicants for employment with any signatory contractor can be required to submit to and pass a drug test at the Employers expense. Should the Employer require a new applicant to be drug tested, that applicant shall be placed on the Employer's payroll before testing begins. If an employee is notified that the results are positive, they will be paid in full to the end of the day of notification. All drug testing will be performed during normal working hours.

No test need be performed, however, if the applicant has been employed by a contractor covered by this agreement, provided the individual authorizes the contractor to obtain information from past Employers to establish the individual's participation in this drug and alcohol testing program. All request for information and information provided shall be maintained in strict confidence.

It is recognized that employees may be required to submit to testing as required by a project owner at the Employers expense. Employees must agree to such testing, provided such tests meet the minimum standards of this policy. Employees refusing to consent to such testing shall be deemed to have voluntarily quit their employment for all purposes under this agreement and shall give rise to a rebuttable presumption that the employee had violated this policy.

Within three days after notification of a positive drug test result, an employee subject to this policy can request the Employer to direct the MRO (Medical Review Officer) to authorize testing of the split sample at another SAMHSA laboratory of the employees choosing. The cost of analyzing the split sample shall be borne by the employee subject to the testing. If the split specimen analysis is negative, the Employer shall reimburse the individual for the cost of that test and if employment is available, shall provide that individual with employment.

Employees taking prescription medication which, according to their physician, may have physical or mental side-effects which could affect their performance on the job, should report the use of said medication to site supervision. Employees who report the use of lawfully prescribed medication shall not be disciplined for use of same, but may, upon the advice of the Medical Review Officer, be subject to possible reassignment to less hazardous operations. The Employer reserves the right to have its physician determine if a prescription drug produces hazardous effects. It is prohibited for employees to share or distribute prescribed medications or over-the-counter medicines to fellow employees.

An employee reasonably suspected to have used alcohol shall be required to submit to testing conducted in accordance with the procedures and methods adopted by the Federal Department of Transportation (40 CFR Part 40). A positive test will be reflected by a blood-alcohol content equal to, or greater than, the current Illinois State Motor Vehicle regulations.

No reasonable suspicion test can be performed unless the company representative involved in the decision to test has received training outlined under federal regulations (Federal Register 59 Fed.Reg 7333-4) for the Department of Transportation regarding drug and alcohol testing.

Employees tested upon reasonable suspicion shall not receive compensation for time spent away from the job while being tested, unless the result is negative. Compensation shall include any wages and benefits that would have been paid had the employee's work hours not been interrupted by the test. Upon written consent of the suspected employee, the Union shall be notified that this member has been requested to submit to drug and/or alcohol testing.

-15-
Any employee who feels that he or she has developed a problem with alcohol or drugs is encouraged to seek assistance before it deteriorates into a disciplinary matter. Requests for assistance will be handled in the strictest confidence within the company and the union. The Company will act in concurrence with the Union Health and Welfare Plan to help any employee who voluntarily notifies a company representative that he or she may have a substance abuse problem in obtaining suitable treatment. A written medical release will make the employee eligible for immediate reinstatement, provided the Employer has work available and the employee continues the required chemical dependency treatment program. Depending upon the recommendation of the treating health care provider, the employee may be subjected to follow-up testing. Discipline, up to and including termination, may be imposed in the event it is reported by the treating health care provider that the employee has failed the plan of recovery. It is understood that the goal is not being one of replacing an employee who voluntarily sought help and continues to seek help after initial treatment, but rather one of encouraging those whose feel the need for help to seek it.

Any disciplinary action taken under this policy will be subject to existing collective bargaining grievance procedures.

The provisions of this policy, requiring all employees to present themselves at work not having used alcohol and drugs, shall apply to all other individuals entering company property including, but not limited to, part-time personnel, temporary personnel, vendors, contract personnel, subcontractor personnel, consultants and any employees of contractors working on the jobsite or company property.

Funding procedures for a drug-free workplace construction industry program will be mutually agreed upon by the Building Trades and the Contractors Association.

ARTICLE 12 - Union Security

1. All present employees who are or become members of the Union, shall remain members in good standing as a condition of their employment. All present employees who are not members of the Union and all employees hired hereafter, shall become and remain members in good standing in the Union as a condition of their employment, on the eighth (8) day following the beginning of their employment, or the effective date of this Agreement, whichever is later, as authorized in Section 8 (f) of the Labor-Management Reporting and Disclosure Act of 1959. It is agreed by both parties that the employees who do not belong to the Union may voluntarily join the Union anytime within the eight (8) day period.

2. Upon written notice from the Union notifying the Employer of the failure of any employee covered by this Agreement to complete or maintain his membership because of non-payment of dues, the Employer shall within twenty-four (24) hours of such notice, discharge said employee. Provided further, that no Employer or the Union, discriminate against any employee to whom membership was not available on the same terms and conditions generally applicable to other members, or if membership was denied the employee for reasons other than the failure of the employee to tender the periodic dues and the initiation fees uniformly required as a condition of acquiring membership.
3. Employees shall have the right within the limits set by Section 8 (b) (4) of the National Labor Relations Act, as amended, and it shall not be a violation of this Agreement nor cause for discharge, if an employee or employees covered by this Agreement refuse to go through an established Union Picket Line.

4. For this purpose, the requirements of membership and maintaining membership shall be consistent with Federal and State Law. The Employer shall not be in default unless it fails to act within the required period after receipt of written notice.

5. In the event the Employer sub-contracts any job site work covered by this Agreement, he shall be a guarantor of such performance by the sub-contractor of all terms and conditions of said sub-contractor's agreement with the Union, or in the absence of such an Agreement. In that event, the Employer shall be liable to the Union for any act or omission of the sub-contractor which in anyway departs from or is inconsistent with the terms and conditions of said sub-contractor's agreement with the Union, or in absence of such an agreement, with the terms and conditions of this Agreement.

ARTICLE 13 - Hiring Practice

1. Hiring may be done either directly between the Employer and the employees specifically desired, or through the hiring hall. Selection of applicants for referrals to jobs shall be on a non-discriminatory basis and shall not be based upon, or in anyway affected by Union membership or any other aspect or obligation of the Union membership policies or requirements.

2. The Employer shall retain the right to reject any job applicant referred by the Union.

3. All provisions relating to the function of this hiring agreement shall be posted by the Employer and the Union.

4. In the event that any job applicant shall claim discrimination he may, within ten (10) days following the occurrence of the event which constitute the basis for his claim, file with the parties so charged, a written complaint clearly and specifically setting for the discrimination charged. The other party shall be notified immediately and given a copy of the complaint. A tribunal consisting of a representative of the Employer and a representative of the Union jointly, shall consider the complaint, and within three (3) days, render a decision which shall be final and binding. The tribunal is authorized to make and issue procedural rules for the conduct of its' business, but is not authorized to add to, subtract from or modify any of the provisions of this Article, and its' decision shall be in accord with the Labor-Management Relations Act, as amended.

5. Neither the Union nor the Employer shall discriminate in the referring or hiring of employees because of age, race, color, religion, sex, national origin, or status as a Vietnam-Era Veteran, nor against qualified disabled veterans or qualified individuals with disabilities.

6. Solicitation of Work: Plasterers may solicit their own work. When doing so and they are hired by a contractor, the employee shall notify the Union within eight (8) hours of the time of hire.
ARTICLE 14- Building Trades Check-off and TRICON

1. The Employer has added to the negotiated base rates of pay an amount equal to the West Central Illinois Building and Construction Trades Council Check-off, as set forth below, and shall deduct same from employees wages each week and remit same to the West Central Building and Construction Trades Council, 400 N. Jefferson Street, Peoria, IL 61603; together with a list of names and total hours worked of each employee from whom deductions were made. The payment and the payroll report shall be mailed to reach the office of the Council not later than ten (10) calendar days following the end of each calendar month.

Effective May 1, 2006, ten cents, ($0.10) per hour. The Employer shall be furnished a written authorization from each employee which shall not be irrevocable for more than one (1) year, or beyond the termination date of this Agreement, whichever occurs sooner.

2. The parties recognize the value to the community and to the Construction Industry of a joint Labor-Management Committee serving the Construction Industry. To this end the parties agree to participate in, support and, in part, fund the operation of the Tri-County Construction Labor-Management Council (TRICON). TRICON contributions represent a joint and matching contribution on behalf of each Employer and each Employee. In the event that TRICON contributions are discontinued, the existing wage scale shall be increased by an equal amount to half of the contributions rate at the time such contributions are discontinued.

Effective May 1, 2009 .04 per hour

3. At the request of a Contractor, the Business Representative and his Executive Board may, at their discretion, alter any terms and conditions set forth in this Agreement.

ARTICLE 15 - Date of Agreement & Amendments

1. This Agreement shall become effective May 1, 2009 and remain in full force and effect through April 30, 2011, and shall continue in force from year to year thereafter unless notice is given in writing to the other party at least sixty (60) days prior to the expiration date.

2. Individual Employers signatory hereto who are not members of the said Association agree to be bound by any amendments, extensions or changes in this Agreement agreed to between the Union and the Association, and further agree to be bound by the terms and conditions of all subsequent Contracts negotiated between the Union and the Association unless ninety (90) days prior to the expiration of this or any subsequent Agreement, said non-member Employer notifies the Union in writing that it revokes such authorization. Further, said non-member Employer agrees that notice served by the Union upon said Association and Mediation Services for re-opening, termination or commencement of negotiations shall constitute notice upon and covering the non-member Employers signatory hereto.

3. Any amendment which shall be mutually agreed upon by the members of the Joint Conference Board shall become part of this Agreement.

4. This Agreement may be executed in a number of counterparts, each of which shall have the force and effect of duplicate originals and not more than one counterpart need be signed by any
party hereto.

5. This Agreement constitutes the entire Agreement between the parties and supercedes and replaces all previous Agreements and practices between the parties both written and oral.

6. Most Favored Nations: Should the Union enter into an agreement with any other Employer or Association which provides better wages and/or terms and conditions of employment, then such wages and/or terms and conditions of employment shall automatically apply to the Employers signatory to this Agreement.
