

Construction Pathways

CAREER EXPERIENCE

LiUNA!

March 31 • Caterpillar Edwards
Demonstration & Learning Center

SkillsUSA Illinois, through an innovative partnership with the Otto Baum Company, Inc., is excited to offer the first Construction Pathways Career Experience 2023 trades event. Focused on and opened to high schools in central Illinois, this Career Experience seeks to bring together area union construction trade organizations and contractors who are focused on hiring young, ambitious, and skilled individuals. Construction Pathways will connect students to career opportunities where the job seeker can earn a great wage, learn a career trade that supports a family, and do it without incurring debt.

BECOME A PARTNER AND GET INVOLVED

To get involved, complete the form at bit.ly/cpce-ef22.

Local employers and organizations have opportunities to get involved, including information booths, job interviews, skill demonstration stations, and volunteering.

For more information or questions, contact SkillsUSA Illinois:

RECRUIT YOUNG, SKILLED TALENT

Interact with current students in the construction trades pathway who want to learn about employment opportunities, current industry needs and trends, and position growth pathways available for future professional success.

DEVELOP A WORKFORCE PIPELINE

Connect with the next generation of the skilled craft workforce. Showcase the industry to engage and enhance student interest in learning more about the field. Create plans with local schools to develop work-based learning opportunities.

ENGAGE WITH YOUR COMMUNITY

Engage with students and instructors in construction trades from schools in your local community. Provide opportunities for individuals to explore, try-on, and master skills within the skilled trades, preparing individuals to work within the local community.
